Palmetto Electric Cooperative, Inc.

Your Touchstone Energy[®] Partner 

Palmetto Electric's H₂O Select® Water Heater Program Pays You To Stay In Hot Water.

How Can Palmetto Electric Offer These Benefits?

The H₂O Select water heater provides plenty of hot water when you need it, and it operates only during off-peak hours, when demand for electricity is lowest. That saves Palmetto Electric money, and we pass the savings on to you.

How Do I Qualify?

There are two easy ways. One, replace your current water heater with a new electric model and get cash back - up to \$350 - from us. Or two, select our turn key option where we'll purchase and install a new one for a nominal monthly fee spread over five years.

That's all there is to it!

How Do I Cash In On H₂O Select?

Contact any Palmetto Electric office and ask to speak with an H₂O Select representative. We will determine the best water heating option and tank size for your home.

Contact a plumber to install your new water heating system, or select the turn key option and we will make the arrangements for you.

Let us know when your water heater is installed. We will then arrange to inspect the water heater and attach the off-peak switch. Sign an agreement, which indicates that you will participate in the H₂O Select program for a minimum of 10 years.

Enjoy hot water for years to come.

What Are My H₂O Select Options?
