WILDLIFE SAFETY FACTS

Most wildlife just wants to be left alone. They will usually go away if you give them space.

Never try to kill wildlife. That is when you are most likely to get bitten.

Be aware of where you step and where you put your hands.

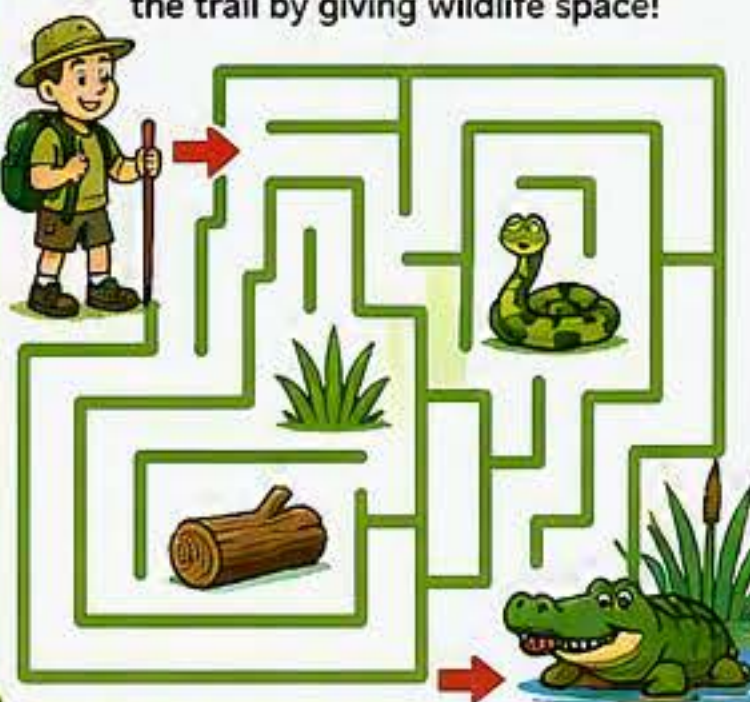

Stay away from the edge of the water. Alligators are excellent swimmers and can move quickly.

Respecting wildlife helps keep both you and the animals safe!

MAZE CHALLENGE!

Help the hiker get safely back to the trail by giving wildlife space!
